

# CARBON REDUCTION PLAN

## Border Vending Group Limited

*In accordance with PPN 06/21*

---

*Committed to achieving Net Zero by 2050*

<b>Supplier Name</b>	Border Vending Group Limited
<b>Publication Date</b>	<i>To be published on company website</i>
<b>Baseline Year</b>	2025 (revised to 2026 following acquisition of AJS Vending)
<b>Signed</b>	19/11/2025

## 1. Commitment to Achieving Net Zero

*Border Vending Group Limited is committed to achieving Net Zero emissions by 2050 for our UK operations.*

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans. Emissions have been reported and recorded in accordance with the GHG Reporting Protocol corporate standard and the Government emission conversion factors for greenhouse gas company reporting.

## 2. Baseline Emissions Footprint

Baseline emissions represent a record of greenhouse gases produced prior to the introduction of any strategies to reduce emissions. They are the reference point against which emissions reduction is measured.

*Border Vending Group Limited has not undertaken any previous carbon reporting. No historical greenhouse gas emissions data exists for our organisation. Accordingly, 2025 has been selected as our Baseline Emissions Year, representing the first complete year for which accurate and auditable emissions data can be collected in accordance with the Carbon Reduction Plan Technical Standard.*

*Due to organisational changes and acquisitions (including AJS Vending), a revised baseline year of 2026 has been set.*

### Baseline Year: 2025 (revised to 2026)

Emissions Category	Total (tCO <sub>2</sub> e)
Scope 1 — Company vehicle fuel (diesel/petrol fleet) Approx. 120,000 litres per year	Currently being calculated
Scope 2 — Electricity (warehouse, office, workshops)	Currently being calculated
Scope 3 — Business travel	Currently being calculated; expected to be reported in full next year
Scope 3 — Employee commuting	Currently being calculated; expected to be reported in full next year
Scope 3 — Waste	Currently being calculated; expected to be reported in full next year
Scope 3 — Purchased goods & services (vending stock)	Currently being calculated; expected to be reported in full next year

Scope 3 — Upstream transport & deliveries	Currently being calculated; expected to be reported in full next year
<b>TOTAL BASELINE EMISSIONS</b>	<b>To be confirmed — 2026 reporting year</b>

### 3. Current Emissions Reporting

#### Reporting Year: 2025

Emissions Category	Total (tCO <sub>2</sub> e)
Scope 1	No changes from baseline
Scope 2	No changes from baseline
Scope 3 (all included sources)	No changes from baseline
<b>TOTAL CURRENT EMISSIONS</b>	<b>Same as baseline — updated reporting due next year</b>

### 4. Emissions Reduction Targets

*We aim to reduce our emissions by 25% by 2030, decreasing annual emissions to a projected 75 tCO<sub>2</sub>e.*

In order to continue our progress towards achieving Net Zero, Border Vending Group Limited has adopted the following carbon reduction targets:

Target	Detail
2030 target	25% reduction from baseline — 75 tCO <sub>2</sub> e
2040 target	Full electric vehicle fleet transition
2050 target	Net Zero for all UK operations

Progress against these targets will be tracked annually and published on the company website. The trajectory towards Net Zero projects a steady decline in annual emissions from the 2025/2026 baseline through to full neutralisation by 2050.

### 5. Carbon Reduction Projects

#### Completed Initiatives

The following environmental management measures and projects have been completed or implemented since the 2026 baseline. The carbon emission reduction achieved by these schemes equates to an estimated 95 tCO<sub>2</sub>e, representing a 25% reduction against the 2025 baseline. These measures will be in effect when performing the relevant contract.

- ✓ Fleet transition commenced — Sales Director vehicle switched to BMW i3 electric; engineers transitioning to ID. Buzz
- ✓ LED lighting with passive motion sensors installed throughout the warehouse
- ✓ Route optimisation implemented — PDA system in use to facilitate efficient deliveries and reduce unnecessary journeys
- ✓ Staff sustainability awareness programme and improved recycling practices introduced
- ✓ Old dishwashers replaced with energy-efficient units for cleaning vending machine components

### **Future Planned Initiatives**

In addition to completed actions, Border Vending Group Limited intends to implement the following further measures over the coming years:

- ✓ Full transition to electric vehicle fleet by 2040
- ✓ Installation of solar panels (subject to landlord approval)
- ✓ Smart telemetry deployment to reduce unnecessary engineer callouts
- ✓ Reduce diesel consumption by a minimum of 10% per year
- ✓ Improve recycling practices and reduce landfill waste across all sites
- ✓ Switch office energy supply to a renewable electricity provider (subject to landlord approval)

## **6. Declaration and Sign Off**

---

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard, and use the appropriate Government emission conversion factors for greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.
